Re: Pauline Mayer Group Home, K850000195

This letter is in response to the recommendations for OKDHS OCCS Licensing Unit from the Office of Juvenile System Oversight's visit to the Pauline Mayer Group Home on October 5, 2010.

Your recommendation is for the group home supervisor to be notified that the OKDHS licensing unit no longer contacts the state fire marshal's office to request an annual fire safety inspection. The licensing staff assigned to work with this facility will communicate with the group home supervisor that they may request their own fire inspection from the Oklahoma State Fire Marshall.

Please let me know if you need additional information regarding this issue.

Sincerely,

Susan Case, Programs Manager
Residential and Agency Licensing
